Our Partner:  **BM Engineering**

BM Engineering in Denmark develops and produces the robust and easy-to-operate "SATURN" inline printing systems with 1-4 colours. The use of standard components, e.g. Beckhoff drives and motors, guarantees a long service life and fast availability.

All systems are built according to the same principle and adapted to specific customer requirements. BM Engineering has more than 20 years of experience with the construction of inline printing systems.
